# System Application

*What you'll see every day depends on the first 3 steps:  
Evaluation - Recommendation - Preparation*

- Our commitment is to provide you with:
  - Scheduling to minimize your downtime
  - Concare owned and maintained equipment (no rental logistics)
  - Factory trained, field tested installers and crew leaders
  - Continuous safety training for all employees, including staff
  - An inside support staff including:
    - + Scheduler to coordinate all work
    - + Warehouseman to insure materials are on-hand for your project
    - + Mechanic to keep the equipment in top working condition
    - + Operations manager, with the field experience to keep your project on track
  - Warranty protection against premature wear-through and adhesion failure
- Whether it's a rolled-on coating, decorative floor or a 1/4" troweled resurfacer, Concare crews provide attention to detail, and pride in the application of your new floor. **AND WE HAVE THE TRACK RECORD TO PROVE IT!**
- Every floor installation is unique. Customer requirements differ from industry to industry. Our experience applying floors in a wide variety of environments is the most useful resource in assuring your new floor will perform and look the way you desire
- Consider the companies that have trusted Concare to help their company's image, safety, and productivity:

★ Abbott Laboratories

★ Acco USA

★ Morton Grove  
Pharmaceutical
